Duarte Station Specific Plan

Draft

September, 2013

Prepared For:

City of Duarte

The costs associated with the preparation of the Duarte Station Specific Plan and Environmental Impact Report (EIR) are being funded primarily through a grant from METRO, the Los Angeles County Metropolitan Transportation Authority. The City of Duarte would like to thank METRO and their Staff for approving funding for the creation of the Duarte Station Specific Plan and related EIR through the Transit Oriented Development (TOD) Planning Grant Program. METRO support has been paramount to the success and completion of these land use planning and environmental documents.
