

A COYOTE IS VISITING THE NEIGHBORHOOD

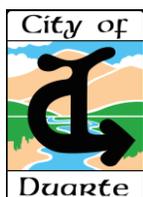

**Please do your part to prevent repeat visits.
The coyote will remain in the area if it finds food.**

- Coyotes may be active at any time of day
- Typical fencing (6ft) will *not* keep Coyotes out
- Keep your cats inside and supervise small dogs
 - Remove outdoor pet food
 - Pick up fallen fruit
 - Secure your garbage
- Trim overgrown landscaping

Make the coyote feel uncomfortable.

- Be aggressive: yell, throw rocks, spray a hose at the animal
 - Make yourself appear large, and back away slowly
 - Never turn your back or run away
