Help Keep Food Waste Recycling Clean!

Senate Bill 1383 requires a **75% reduction in organic waste disposal**. All residences and commercial businesses are required to participate and **recycle organic waste including food and landscape waste**. Food waste is collected, recycled and made into new products such as compost, mulch and renewable gas. **During the sorting process workers must remove non-acceptable material such as trash, plastic containers, glass and other contaminants.**

Keeping your containers free of contaminants will help contain recycling costs and keep material clean to create new products.

Spread the message, "Help keep your food waste recycling clean!"

Commercial Waste & Recycling

Burrtec provides customized services to fit the specific needs of our commercial customers.
